YOUR STAR TODAY

ARIES
20th March - 20th April

You may be feeling a bit sluggish today. Your warrior instinct would rather just stay home on the couch than get up and fight. This is fine. More than likely, you may simply need a break from your quest for world domination. Remember that a good leader also takes the time to rethink.

TAURUS
20th April - 20th May

Your sensitivity is quite strong today, and you will find that your perception of any situation is right on target with the truth of the matter. Keep in mind that in order to be successful, you won't need to strong-arm anyone into doing what you want him or her to do. You will be able to accomplish by tuning in nature.

GEMINI
20th May - 20th June

You may be feeling a bit confused today, and it may seem as if the wind has suddenly been taken out of your sails. Don't get discouraged by the slow weightiness of the day. Take this opportunity to relax and recharge your battery.

CANCER
20th June - 20th July

Today is an excellent day for you, and you will find that you are a welcomed addition to any crowd. Your delightful nature is at its most active. You have the unique capability of being aggressive about getting what you want without disturbing the flow of the energy around you.

LEO
20th July - 20th Aug

The world is probably not going to revolve around you today, so get used to it. Even though this may not be the news you want to hear, it is probably the news you need to hear most. Use your incredible passion to nurture others. Think less about yourself and more about the people around you.

VIRGO
20th Aug - 20th Sept

Initiate a deep and meaningful conversation with someone you have lost touch with over the years. It could be that a long and ugly point of contention is on the brink of resolution. All you need to do now is to make the first move. Find a connection with someone that you didn't know was there before.

LIBRA
20th Sep - 20th Oct

Your transmission may be stuck in reverse today, but this doesn't mean that you can't be productive. You may just need to change your approach. Make a careful assessment of the situation before you proceed. It may be that someone is openly trying to cross you. Be smart about your rebuttal.

SCORPIO
20th Oct - 20th Nov

Things should go well for you today, and you will find that there is an added serenity in the air that will help calm your nerves. There is no need to make things more complicated than necessary. The answers to things are actually quite simple. More than likely, everything you want is right at your fingertips.

SAGITTARIUS
20th Nov - 20th Dec

It may seem as if someone has dumped a huge bucket of water over your head today. Keep in mind that this is only temporary, and that your internal flame will be rekindled soon. For now, however, you may want to take this time to slow down and relax.

CAPRICORN
20th Dec - 20th Jan

Tension may be running high today as things come to a great emotional climax. It may seem as if everyone is out to get you, but more than likely, this paranoia is simply a figment of your imagination. Don't get carried away with crazy scenarios that have no basis in reality.

AQUARIUS
20th Jan - 20th Feb

More than likely, you will be caught up in a wildly intense emotional drama if you aren't careful. Try to stay calm and collected. Find a quiet place where you can relax and be alone. Your energy is there, but it may be a bit more reserved and subtle on a day like this. Be the stable oasis in the raging sea.

PISCES
20th Feb - 20th Mar

You will find great strength in your inner reserves today, so don't hesitate to let your deepest thoughts shine through. Keep your antenna up all day, for you will find that there is an added bit of electricity in the air that is keeping people's emotions at a peak level. Rational thinking is overrated.
