Your star today

(Mar 21st - Apr 20th) Try to keep your emotions in check today. It's possible that you could become extremely angry and do some damage to yourself and others around you. It's important to maintain certain modesty and humility at all times. You'll build good character that earns the respect of others, including your superiors.

(Apr 21st - May 21st) You may feel like someone is trying to rain on your parade. It's important not to forget who you are now. Don't be surprised if you feel a negative pull from someone or something. If so, step away from the situation. It's not your responsibility to make everyone happy. Don't bring yourself down.

(May 22nd - Jun 21st) Today is a terrific day for you. You're able to accomplish a lot during the day, leaving the night open for excitement with others. Once you take care of the necessary things, feel free to grab a big helping of fun. You've earned the right to break loose and party. There's confidence in your step, so strut your stuff.

(June 22nd - July 23rd) Promote balance and harmony today by letting off a bit of steam before you try to engage with others and their dramas. Secure yourself in a stable environment where you can vent your concerns, punch pillows, or jog around the block. Once you get that out, you'll have a fresh, new attitude with which to participate in the adventures of the day.

(July 24th - Aug 23rd) There's aggressiveness to you today, but this feeling can be useful to you and what you have going on. There's a practical force helping you stay grounded and realistic about certain issues. Don't make promises that you know you can't keep. Don't be the salesman who promises the world and then fails to deliver anything.

(Aug 24th - Sep 23rd) There's increased emotional tension today. You may be at the forefront of the action as you take things higher and farther. Have a map handy or you could wind up alone in the middle of nowhere. Other people will be looking for something practical in your approach so they have something solid to lean on during this time.

(Sep 24th - Oct 23rd) Don't hold back today. You're the right person for the job in about every situation you encounter. You'll have the instincts required to move on a project, see what needs to be done, gather the resources, and get the ball rolling. There's an aggressiveness to you that's urging you to make a grand conquest, paving the way for a huge celebration of feast and fun.

(Oct 24th - Nov 22nd) You should try to hold your tongue today. Although you think you have all the answers, you might not have taken all the pieces of the puzzle into account. There is an emotional aggression to the day that may have a strong effect on everyone, especially you. Consider being more of a listener than a talker.

(Nov 23rd - Dec 21st) Don't be surprised if you feel like you're being poked with a stick today, as something urges you to get moving. There's an aggressive energy moving about and making demands on everyone. You should think about how your skills and perceptive nature can be best used to help do things efficiently and effectively.

(Dec 22nd - Jan 20th) Pull yourself together, and figure out what it is your heart desires. There's an aggressive force tugging at your heartstrings today. Unless you have it firmly in your mind what it is you want and feel, you'll be easily pulled off track. Stay grounded and you should be OK.

(Jan 21st - Feb 19th) Point your aggressiveness in the right direction today. That shouldn't be too hard since you know and understand the meaning of a job well done and what's required to get things accomplished. You're anxious to get the ball rolling on certain projects. You've done the organization and planning. Trust that you know exactly how to proceed.

(Feb 20th - Mar 20th) Today isn't a day to lounge around. There's a very important practical matter that must be dealt with before you can engage in any lighthearted activities. The night's events will be fun and rewarding as long as you complete the duties of the day, leaving your mind free of obligations.
