## YESTERDAY'S SOLUTION

**How to play:**

Place a number in the empty boxes in such a way that each row across, each column down and each 9-box square contains all of the numbers from one to nine.

# Your star today

(Mar 21st - Apr 20th)

Your emotions may seem a bit muddy today. You might not understand the reason for this. Look to others to share your thoughts. You should find that talking will help you sort through your feelings. If you need to, shift down to second gear for a little more power. Take your time if you need to.

(Apr 21st - May 21st)

You're going to get it all today. You may not feel especially powerful, and in fact there may be those who try to make you feel incompetent. Realize that this is a passing trend and you will soon bounce back to your true self. Open up a little more than usual and let more light into your life.

(May 22nd - Jun 21st)

Today is your day to shine, so give it your all. Be sure that you get the credit you deserve for all you do. Try not to fall into self-pity. Be yourself and people will naturally follow your lead. Now is an excellent time to make plans for the future. Stay grounded and on target with your goals. Make sure you aren't thrown off course by other people's whims and motivations.

(June 22nd - July 23rd)

Today is a day of contrasts. Eat chocolate in the morning and go jogging in the afternoon. Sleep in late and go to bed early. It's also a day of grounding. Spend time at home and make more calls than you normally would. Clean your desk and organize a bookshelf. Why not clean out the refrigerator? Take care of your pets.

(July 24th - Aug 23rd)

The day doesn't begin until you clear your head and take stock of some pending personal issues. You might be making mountains out of molehills. Realize that there's a path for everybody. Put your stinger away today. It's powerful, but it won't do any good. Keep your power under wraps. Concentrate more on the mundane tasks that need to be done.

(Aug 24th - Sep 23rd)

Today might be a difficult day for you. You instinctively will want to escape the situation and explore your horizons, but something holds you down. Take care of the bills on your desk, and deal with the mess in the bedroom. Clearing the physical space around you will help clear the mental space in your head. You will be footloose and fancy free soon enough.

(Sep 24th - Oct 23rd)

The world is wide open to you today, so take advantage of all the great things it has to offer. Even though you may not realize it, you have a loyal fan club developing in the wings. The things you say and do have a strong impact on others. This is a fantastic day to take charge and lead others who seem to be floundering. Your solid perspective will be an asset in every situation.

(Oct 24th - Nov 22nd)

Say what's on your mind, but don't take offense if no one seems to listen. Don't bulldoze your point through. Whiners aren't popular, either. Concentrate instead on your aspirations and push yourself to the limit. You might have been talking a lot lately, and getting those ideas out there is great. Now is the time when you need to lay some groundwork in order.

(Nov 23rd - Dec 21st)

Get your head out of the clouds, and come back to Earth for a nice visit. There are some things you need to take care of here. Mundane tasks and routine chores won't be painful after you set your mind on getting them done. You can accomplish a lot today. Just make sure you keep a level head and keep a firm handle on the reality of the situation.

(Dec 22nd - Jan 20th)

Bring things down to Earth today. Get yourself grounded and enjoy the day. The more you slow down and adopt a caring, sensitive, receptive attitude, the more things will naturally flow your way. This isn't a day to fight. It's a time to connect with others on a symbiotic level. Nurture yourself and others. Get a massage and snuggle up close to those you love.

(Jan 21st - Feb 19th)

Today is a fantastic day for you, so enjoy yourself fully. Your emotions will be stable and you have a very expansive sense of well-being. Your self-confidence is strong, so use this to your advantage. This energy may be subtle, but if you tune into it early in the day and set a plan for what you want to accomplish, you can be very productive.

(Feb 20th - Mar 20th)

Today is a good day to simply get things done. Take care of the annoying tasks that have been accumulating. You have a great opportunity to accomplish a lot. People are less concerned with frivolous drivel and gossip than they are with setting a plan to meet an important goal. Contribute to this trend by getting serious about the tasks at hand.
