How to play:

Place a number in the empty boxes in such a way that each row across, each column down and each 9-box square contains all of the numbers from one to nine.

Your star today

(Mar 21st - Apr 20th)

Today's a good day to ground your fluctuating emotions. Step back from the drama you create and evaluate your inner state. Are you fooling yourself into thinking everything's OK when it really isn't? Be honest with your highest truths and ground yourself back in reality. Write down your thoughts.

(Apr 21st - May 21st)

Things may be calm today. You might not be your boisterous self, but that could be a good thing. Use the sobering energy to evaluate your emotions and honestly look at your relationships. Are you getting the respect you deserve? Perhaps you need to tell some people that their words or actions aren't OK. Meanwhile, get things done.

(May 22nd - Jun 21st)

Today is a great day for you. Everything is flowing your way as more pieces of the puzzle fall into place. Your fluctuating emotions are grounded and calm, letting you stand back and evaluate your true inner state. Have you been giving yourself the attention you deserve? This is your day. Get things done. You can accomplish quite a bit using this astral energy.

(June 22nd - July 23rd)

Someone or something may spur you on today. You may feel a nagging impulse to get up and do something. Follow that instinct and stop moaning about staying in bed. The practical truth may be sobering, but as you know, balance is key. Bring equilibrium to the situation by taking a good, honest look at your emotional state.

(July 24th - Aug 23rd)

Bite the bullet and get it done. Finish the projects and get the lingering odds and ends out of your way. There are stable energies today that will bring a practical breath of fresh air to any situation. Take a step back from the swirling winds and observe your inner self. Realize how your actions and emotions affect others.

(Aug 24th - Sep 23rd)

Today might not be as lighthearted and free-spirited as you'd like, but don't sweat it. Work with the grounded energy of the day to complete tasks that have been wearing on you for a while. Take a step back from the drama in your life and observe your emotions from a loftier viewpoint. Realize how your actions have been affecting others.

(Sep 24th - Oct 23rd)

Today is a fantastic day for you. Things are naturally flowing your way. You can accomplish a great deal. There are few hurdles in your way, perhaps none. You're well disciplined about your time and what's needed to get the job done and how to meet your goals. Your emotions are especially calm and stable, giving you the opportunity to observe and evaluate them from a neutral viewpoint.

(Oct 24th - Nov 22nd)

There's a conservative air today that doesn't fit well with your erratic, unconventional nature. Things might pop up to remind you that you should be a bit more disciplined in your approach. Your thoughts and emotions are perhaps a bit less controlled than usual, so take this time to become centred and evaluate the truth. Today is a good day to focus.

(Nov 23rd - Dec 21st)

Something is tugging you back down to reality. Your mind has tended to be in the clouds lately, but now you need to ground your emotions and realize that you operate on a physical plane, too. Your emotions are stable for now, affording you a chance to step back and evaluate how you've been treating yourself. Make sure you give yourself the attention you deserve.

(Dec 22nd - Jan 20th)

There's a conservative veil over your emotions. Issues from the past might arise and rub you the wrong way. You move onward and upward by nature, ploughing ahead without thinking of the consequences. Today you might be a bit more sober than usual. Look at what's worked in the past in terms of keeping your fiery emotions intact. Try not to resent the past but learn from it.

(Jan 21st - Feb 19th)

Today is fantastic for tuning in to your inner self. You will have a level, grounded mind from which to make conscious evaluations of your emotional state. Trust your instincts and make realistic plans for the future. You're especially disciplined today, and you have a keen sense of what your goals and objectives are. Use this grounded energy to get things done.

(Feb 20th - Mar 20th)

You may feel a bit weighed down today, and perhaps more reserved than usual. Someone may be raining on your parade, but don't let it get you down. Use the grounded energy of the day to get things done. You have your hands full with many tasks, so sit down and bring them to completion.
