YESTERDAY'S SOLUTION

How to play:

Place a number in the empty boxes in such a way that each row across, each column down and each 9-box square contains all of the numbers from one to nine.

Your star today

(Mar 21st - Apr 20th)

A number of invitations to social events could come your way today, some from people you really don't know well. Don't pass them up, however. You could make some fortunate contacts or even some new friends at these parties. You enjoy being around people, but today you might find it a bit tedious. Your heart is with your family.

(Apr 21st - May 21st)

Visitors could come to your home tonight, possibly for an informal get-together of some kind. Dear friends might be involved in some way. You're likely to be very busy during the day, perhaps tying up loose ends. Your mind is probably going a thousand miles an hour, so you'll need to wind down before going to bed tonight. You don't want to lose any sleep.

(May 22nd - Jun 21st)

You may appear to have your head in the clouds today. The truth is, you've got a lot of important things on your mind. Others might be offended or even amused at your distance. Try not to worry about this too much. You need to take care of resolving those problems you've been ruminating on before worrying about everyone else's reaction.

(June 22nd - July 23rd)

You might feel that money is flowing out of your bank account all too quickly lately, and this might be a cause of worry for you. You could feel you've spent too much on decorations for your home or on entertaining family and friends. Don't worry! You'll make up for it, and besides, you can't take it with you, you know.

(July 24th - Aug 23rd)

This will be a good day for you. You should be feeling happy, excited, enthusiastic, and optimistic about the future. Relations with family, friends, and neighbours are likely to be warm and congenial. Today could involve a lot of time on the phone or out running errands. Expect a surprise encounter with someone you haven't seen in a long time.

(Aug 24th - Sep 23rd)

A rush of humanitarian spirit and a desire to do some real good might find you looking into various charities in order to find those you might want to help. However, money could be flowing out for other purposes a bit too quickly for your tastes. It perhaps would be best to find one group that suits you and give only to that one. Save other worthy causes for another time.

(Sep 24th - Oct 23rd)

You, along with a significant other in your life, could be very busy trying to make time to see each other today. Later, when you're finally alone, your phone could be ringing nonstop, further intruding upon your time together. Don't be afraid to turn it off! If a call is particularly important, they'll call again later.

(Oct 24th - Nov 22nd)

Today you could be faced with a bunch of people from out of town that you've never met before. You're likely to find this exciting and stimulating, but you could also feel a bit flustered. You might also not be at your most outgoing right now. This could be a better day to listen than to try to talk. Sometimes that impresses people more than anything you might say.

(Nov 23rd - Dec 21st)

Travel and adventure are on your mind. You could be daydreaming about flying to exotic places and doing unusual things, such as touring the ancient sights of India or going on safari in Kenya. Such dreams are possible, so you might want to look into it. You also might want to learn about exciting fields of interest, so this is a good day to sign up for a class or workshop.

(Dec 22nd - Jan 20th)

It may not be easy for you to convince someone today. No matter how profound your idea or how convincing your explanations, the other person just isn't ready to believe it yet. Don't be pushy. Maybe this person needs to sleep on it for a couple of nights, or maybe they just need to do their own research. Be patient and focus on other things in the meantime!

(Jan 21st - Feb 19th)

A trip by air could be very much on your mind today. Perhaps you're planning a vacation with your family or a romantic partner. You could well be caught up in the excitement that seems to be the driving emotion today. Friends could offer advice, but you aren't in the space to accept it, as your self-confidence is high.

(Feb 20th - Mar 20th)

You've got a lot on your mind right now, and others might be interpreting your quiet behaviour as your being aloof. Go right ahead and let them think whatever they want. You've got some real issues to think through, and decisions with important consequences to come up with. You'll be able to smooth their ruffled feathers later.
