

FORD COMES CLOSE TO COLLIDING WITH PASSENGER PLANE

Los Angeles
A new video showing Hollywood actor Harrison Ford's airplane flying over and nearly colliding with an American Airlines jetliner at an airport in California has been released.

On February 13, the "Blade Runner" actor had mistakenly flown his single-engine yellow, Aviat Husky plane low over an American Airlines Boeing 737 jet carrying 116 people at John Wayne Airport in Orange County, California, and landed on the taxiway rather than on the runway, reports *eonline.com*.

In the video, it is seen that his aircraft was so close that it cast a shadow over the jetliner as it taxied slowly.

"Was that airliner meant to be underneath me?" Ford, asked, as heard in previously released audio from the air traffic control tower.

The US Federal Aviation Administration (FAA) had said it was investigating the incident.

Landing on a taxiway is a violation of FAA safety rules. The FAA had told *eonline.com* that air traffic controllers gave Ford clearance to land on a runway. (IANS)

Depp blames years of tax problems on ex-managers

Hollywood star Johnny Depp has accused his former managers of costing him more than USD 6 million in tax penalties and fines as part of their ongoing legal battle.

The 'Pirates of the Caribbean' star sued bosses at The Management Group (TMG) for fraud last month, alleging they mishandled his finances by collecting USD 28 million in fees he never agreed to, repeatedly failing to file his taxes in a timely manner, and loaning roughly USD 10 million of his money without being authorised to do so. TMG heads Joel and Robert Mandel fired back with their own complaint, blaming the 53-year-old actor's tendency to live beyond his means for his money issues.

Depp's lawyer has now filed new papers in the dispute in a bid to have the countersuit dismissed. (TOI)
