Your star today

(Mar 21st - Apr 20th)

You may feel tense, perhaps because someone close to you disregards the way you feel. You feel as if this person is more concerned with his or her own issues and not concerned about you. Meanwhile, your sensitive, caring heart is well aware of everyone else. You support others and are thoughtful. It's time to rearrange your priorities.

(Apr 21st - May 21st)

Take extra time to tend to your appearance and show off a bit today. Keep your shoulders back and head high. Be the proud person you are. You should feel validated. Your job today is to simply uplift people with your presence. This is no sweat for you. Happiness is right up your alley, so have fun.

(May 22nd - Jun 21st)

You may be called upon to host a gathering in your own home. At first this could throw you into a panic because you don't think your house is clean enough. Don't worry. It's probably impeccable. You're the only one who will notice any dust, so don't sweat it.

(June 22nd - July 23rd)

You feel confident. People can't help but notice as you radiate a loving, peaceful calm. Eyes will turn your way, and complete strangers may come up to you and tell you how attractive you are. Be confident yet humble and you will inspire people just by your peaceful, glowing presence. Take advantage of this wonderful day by enjoying yourself for the beautiful person you are.

(July 24th - Aug 23rd)

You may be running into obstacles associated with your goals. You may feel you aren't getting the support and cooperation you deserve. Today you may sense that people are emotionally distant, with shallow views on certain issues. People you expected to be on your side may turn against you, making you feel betrayed. Try not to take things personally.

(Aug 24th - Sep 23rd)

This is a great day for you. Unexpected reunions are possible, thanks to the lighthearted aura you radiate. You don't need to work very hard to bring everything your way. Your sunny personality attracts the fun and good fortune that you most certainly deserve. People are extremely lucky to be in your glowing presence on a day like this.

(Sep 24th - Oct 23rd)

You may wonder why all the attention isn't focused on you. Perhaps you feel cheated and irritable. The more annoyed you get, the more you will drive others away instead of draw them to you. Rather than get upset or angry because attention isn't coming your way, join with the prevailing happy-go-lucky mood.

(Oct 24th - Nov 22nd)

This is a climactic time for you. You may feel like many difficult issues are coming to a head. You may lash out and snap at people who don't deserve it. Your actions may make the issue even more difficult to deal with. The key today is to bring more balance into your life. By controlling and stabilizing your feelings, you can deal with the difficult issues that arise.

(Nov 23rd - Dec 21st)

Get into the spotlight where you belong instead of letting someone else take credit for something you did. Don't be shy about strutting your stuff. You may usually turn away from people who act this way because they seem shallow and self-centered. Realize that you're more sensitive. Be proud of who you are.

(Dec 22nd - Jan 20th)

Today can be a wonderfully productive day for you, if you learn how to compromise. If you insist on doing things your way only, you will run into difficult emotional conflicts. Realize that this can easily be avoided by joining hands with your partner and working together toward a common goal. There's a great deal of energy here, so don't waste it on something insignificant.

(Jan 21st - Feb 19th)

You will most likely be hungry for attention today. You will look at others who are on centre stage and adjust your appearance or attitude in order to be more like them. Be careful of getting obsessed with attention. The key is to be yourself and happy, regardless of who's watching. A flower unseen blooms just as beautifully and smells just as sweet.

(Feb 20th - Mar 20th)

This is a great day to strut your stuff. You're on top of the world, so enjoy it, your family, and the people around you. You're at the forefront of the action and you don't miss a beat, regardless of the conversation buzzing around you. You're able to whip out facts and dates at the drop of a hat. Don't let anyone bring you down or talk you out of your good mood.
