Parties can proceed to the concerned insurance company to process the minor accident once it is reported

When a traffic accident has occurred and one of the parties is injured, it must be reported to the General Directorate of Traffic to process the accident

The accident is photographed from one of the four angles, showing the location of the accident and the involved vehicles

**TDT | Manama**

The newly introduced mutually resolved minor accidents reporting system just got digital and better, with new features.

The information and eGovernment Authority has added four new features to its eTraffic app, available for download on Bahrain.bh/app page, for reporting such accidents.

The "Report Traffic Accidents" tab allows citizens, residents, and visitors from the GCC to alert insurance companies about minor accidents.

The "View Reported Traffic Accidents" provides details of all reported accidents, while the "Traffic Accident Acknowledgment" allows a driver to admit fault.

Finally, the insurance compa-

nies locator gives information on insurance companies, their locations, and contact details.

However, understand that the features are available only if there is an agreement between parties and no injuries.

If there is an agreement, report the incident, photograph the scene and proceed to the concerned insurance company to process other formalities.
