**TDT** | Manama

The Ministry of Interior announced that the smart camera system operated by the General Directorate of Traffic has officially commenced operations. It has documented various traffic violations.

These include using a mobile phone while driving and failing to wear a seat belt, following the announcement of the launch of the first phase of the system, after ensuring the technical infrastructure is ready and can operate efficiently under different conditions.

**Details**

The General Directorate of Traffic noted that, in order to ensure the timely delivery of traffic notifications, including those related to vehicle registration dates, driving licence renewals, as well as recorded violations, all motorists are required to regularly update their personal details via the "MyGov" application, to avoid the accumulation of violations without their knowledge.

The General Directorate of Traffic also stressed the importance of adhering to traffic laws and regulations, avoiding incorrect driving behaviours, and exercising responsibility and traffic awareness.

**Iran president orders nuclear talks with US**

**AFP** | Paris

Iranian President Masoud Pezeshkian has ordered the start of nuclear talks with the US, local media said yesterday, after US leader Donald Trump said he was hopeful of a deal to avert military action against the Islamic republic.

Following the Iranian authorities' deadly response to anti-government protests that peaked last month, President Trump has threatened military action and ordered the dispatch of an aircraft carrier group to the Middle East.

Trump has maintained he is hopeful of making an agreement and Tehran has also insisted it wants diplomacy, while vowing an unbridled response to any aggression.
