**Kingdom shares
grief with Congo**

TDT | Manama

The Kingdom of Bahrain expressed sympathy and solidarity with the Democratic Republic of Congo following the Rubaya mine collapse in the east of the country, which resulted in the death, injury, and disappearance of dozens of people.

A statement by the Ministry of Foreign Affairs extended Bahrain's condolences and sympathies to the families of the victims, the Congolese government and its people, wishing a speedy recovery to the injured and safety for all.

**Easing access to
renovation loans**

An urgent proposal has been lodged in Parliament seeking to make it easier for beneficiaries of the Mazaya Housing Programme to secure renovation loans, by allowing a joint mortgage over the property title deed between Eskan Bank and the bank that financed the main loan.

The sponsors say Mazaya beneficiaries are being turned away when they apply for renovation finance because the title deed is already mortgaged in favour of the financing bank.

They argue the answer is to apply a joint mortgage system for the deed, a method they say is already used in other Eskan Bank housing finance products.

The proposal was submitted by MPs Khalid Buanaq, Zainab AbdulAmeer, Ahmed Al Saloom, Hisham Al Awadhi and Mohammed Al Ma'arifi.

Threatening' aircraft carrier

US warplane shoots down Iranian drone in Arabian Sea

AFP | Washington

A US stealth warplane shot down an Iranian drone that "aggressively" approached an American aircraft carrier as it sailed in the Arabian Sea yesterday, a US military spokesman said.

The incident occurred with the carrier about 500 miles (800 kilometers) from Iran's coast, and came on the same day that

American forces responded to Iranian boats that threatened to board a US-flagged tanker in the Strait of Hormuz.

"An F-35C fighter jet from Abraham Lincoln shot down the Iranian drone in self-defense and to protect the aircraft carrier and personnel on board," US Central Command spokesman Captain Tim Hawkins said in a statement.

Measures

The shootdown took place after the Shahed-139 drone "continued to fly toward the ship despite de-escalatory measures taken by US forces," Hawkins said.

He also confirmed a separate incident that occurred later Tuesday in which two Iranian boats and a drone approached the US-flagged ship M/V Stena Imperative "at high speeds and

threatened to board and seize the tanker."

An American destroyer - the USS McFaul - responded with support from the US Air Force and escorted the tanker, which is now "proceeding safely," Hawkins added.

US President Donald Trump has threatened military action against Iran and sent a flotilla of warships to the Middle East

following anti-government protests in Iran that were met with a deadly crackdown last month.

Trump has said he is hopeful Washington will "work something out" with Tehran, but also warned that "bad things would happen" if a deal was not reached, while Iran insists it wants diplomacy while promising a decisive response to any aggression.
