### Two rockets fired at US airbase in Iraq Baghdad

The Iraqi army said two rockets were fired yesterday at a base hosting Americans, in the third such attack in three days and as a US government delegation is visiting the country.

The two rockets fell on an unoccupied segment of the Ayn al Asad air base, "without causing damage or casualties," the army said.

The latest rocket attack follows one against an air base at Baghdad airport housing US-led coalition troops on Sunday night, and another against Balad air base, which hosts US contractors, north of the capital on Monday night.

Gulf countries condemn continued Houthi drone and missile attacks on Saudi Arabia

**Bahrain expresses solidarity with Kingdom**

**Dubai**

Gulf countries have condemned Houthis' continued launching of drones and ballistic missiles towards Saudi Arabia.

Bahrain further expressed its solidarity with the Kingdom against anything that would target its security and safety.

Saudi Arabia's defense forces intercepted a ballistic missile and two Houthi explosive

drones targeting the southern city of Najran, the Arab Coalition reported.

The UAE's foreign ministry said the continuation of these extremist attacks reflects the militia's disregard for all international laws and norms.

Meanwhile, Kuwait's foreign ministry said the attacks pose a threat to the security of the Kingdom and the region.

The Council of the Arab Ministers of Interior called for holding the Iranian-backed militia accountable, as it exceeded all religious, humanitarian and ethical limits and values, during the Holy Month of Ramadan.

After 27 years of their marriage, Bill Gates and Melinda Gates has filed for a divorce, saying in a court filing that "this marriage is irretrievably broken".

split their assets. In their divorce petition, the couple asked the court to divide their communal property, business interests and liabilities as set forth in their separation contract.

As per Forbes, the Microsoft co-founder is fourth on the list of the world's richest individuals with a net worth of \$130.5 billion. However, the net worth of Melinda Gates, who founded Pivotal Ventures, an investment company fo-

cused on women and families in 2015, is not clear. She has also authored a book.

Besides, the Bill and Melinda Gates Foundation had net assets of \$43.3 billion at the end of 2019. Last year, the foundation said it would spend \$300 million on treatment, detection and vaccines to fight the coronavirus pandemic.

From 1994 through 2018, the couple gifted more than \$36 billion to the Seattle-based foundation.
