Iraq lifts nearly 30 km of blast walls from Baghdad: official

Since the US-led invasion of Iraq in 2003, T-walls have surrounded potential targets of car bombs or other attacks

Baghdad, Iraq

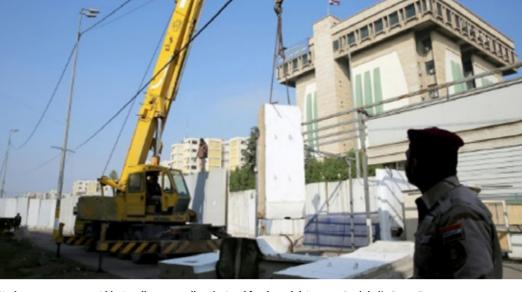

raqi authorities have removed nearly 30 kilometres of concrete blast walls across Baghdad in the last six months, mostly around the capital's high-security Green Zone, a senior official said.

Since the US-led invasion of Iraq in 2003, T-walls -- thick barriers about six metres tall and one metre wide -- have surrounded potential targets of car bombs or other attacks.

When premier Adel Abdel Mahdi came to power last year, he promised to remove barriers, checkpoints and other security measures to make Baghdad easier to navigate.

"Over the last six months, we removed 18,000 T-walls in Baghdad, including 14,000 in the Green Zone alone," said Staff Lieutenant General Mohammed al-Bayati, the PM's top military advisor.

Argentina, Uruguay restore

The episode was the first time a power cut had affected the majority of Argentina

Electricity services have been restored to all of Argentina and Uruguay following a massive blackout that left around 48 million people without power on Sunday, authorities said.

The cut, which began just after 7:00 am, also caused short, localized losses of power in Paraguay, but didn't impact Tierra del Fuego in Argentina's ex- system." treme south because the region is not part of the national

Dozen killed in Indonesia bus crash after passenger argument

Jakarta

welve people were L killed and dozens more injured in an Indonesian traffic accident vesterday after a passenger tried to wrest control of a bus steering wheel following an argument with the driver, police said.

The accident happened at around 1:00 am Monday (1800 GMT Sunday) when the coach swerved into oncoming traffic on a toll road in West Java, smashing into two cars and causing a truck to roll.

Some 43 people were injured in the multi-vehicle accident and rushed to hospital, police said.

"In the middle of the journey, a passenger attempted to forcibly take control of the steering wheel... and the bus then lost control," Atik Suswanti, the head of the Majalengka police traffic unit, said.

The bus driver was killed, according to authorities, while the 29-year-old passenger was severely injured.
