How to play

Place a number in the empty boxes in such a way that each row across, each column down and each 9-box square contains all of the numbers from one to nine.

YOUR STAR TODAY

Aries

Why not radically change the way you behave toward others? You're in the process of orienting yourself toward establishing relationships that are more solid and enriching, with far fewer risks involved. This wasn't the case before.

Taurus

This could be a good day to try relaxation techniques that are a little bit out of the ordinary. Who knows? Maybe you'll even learn something from these unorthodox methods. Why not explore shiatsu or polarity? These techniques can do wonders for restoring your energy.

Gemini

Currently, you are in the midst of some profound questioning about your emotional attitudes. You'll probably find yourself totally free of inhibitions, much to your delight. It's an opportunity to meet new people and perhaps become a bit more open-minded. You can expect lively events and much pleasure from love.

Cancer

If you find your companions a bit too stodgy, today is the day to jostle them out of complacency. You may enjoy experimenting with a bit of naughtiness. For example, how will the people around you react if you flout certain social taboos, such as talking openly about sex? Since you're comfortable with the subject, why not have fun stretching the limits of convention?

Leo

There is the likelihood that you've been a bit of a loner lately. It's as though you decided to look at things differently from the rest of the world, rejecting the individualistic viewpoint in favour of a more global one. Today, you may achieve a new phase in this process. You may attain some summit of consciousness from which you finally have the ability to forgive!

Virgo

Is there some material need weighing on your spirit right now? If you can't see how to solve the problem alone, why not discuss it with your friends? They may have some ideas. Today, the word "impossible" has been banished from the English language. Take advantage of the opportunity to look for solutions in unlikely places.

Libra

Today's prospects should suit the dynamic, idealistic being that you are, especially right now. There will be some criticism in the air, and you won't miss an opportunity to punctuate your comments with your famous irony. Your viewpoints on corporate rigidity and conformist attitudes are well known, but today your sense of humour prevails and people listen to you with pleasure!

Scorpio

There's an excellent day on the horizon. If you feel hemmed in by fears or uncertainties in your love life, the day ahead will give you the courage to discuss these matters with your mate. Even if more time is necessary to settle things completely, you should make good use of today's clear communication channels. You won't be disappointed (and neither will your mate).

Sagittarius

You can expect to be more and more interested in new technologies these days. What you once considered very progressive now seems much closer to reality. You'll notice to what an extent it is now crucial for you to align yourself with the cutting-edge technology that surrounds you. Don't hesitate. You are by definition a pioneer, so full speed ahead to these new frontiers!

Capricorn

For a while now, a certain number of planetary configurations have been continually pushing you to become aware that you live on a whole planet and not just in a city or neighbourhood. You're becoming more aware of society at large, Capricorn. This means that you may be increasingly attracted to large-scale movements.

Aquarius

The current configuration of the planets will make you the bearer of a new philosophy. This doesn't mean that you'll be New Age, but more precisely that you'll have ideas that evolved from it. It's easy to imagine you attending conferences given by the leading minds of the day.

Pisces

You may feel that you've made real progress in your relationships. And you're right to feel this way. "Evolution" best defines the path you're on right now. You can be proud of yourself.
