### Education **Minister** endorses results TDT | Manama

Education Minister Dr Majid bin Ali Al Nuaimi has endorsed the results of all school stages, including the secondary, technical and vocational and intermediate, in addition to those of the students of the Nasser Vocational Training Centre (NVTC).

On the occasion, NVTC Director-General Dr Abdulla Nasser Al Nuaimi extended sincere thanks, appreciation and gratitude to His Majesty King Hamad bin Isa Al Khalifa, for HM's care for the educational march in the kingdom, praising the constant support of His Royal Highness Prince Salman bin Hamad Al Khalifa, the Crown Prince and Prime Minister.

He paid tribute to HM the King's Representative for Humanitarian Work and Youth Affairs and NVTC's Board of Trustees Chairman, His Highness Shaikh Nasser bin Hamad Al Khalifa, for his support to the Centre's affairs.

Dr Al Nuaimi extended congratulations to the students, parents and teachers for their success.

## Waste management is the way forward

Private sector urged to 'invest' in waste recycling, treatment and reuse

BCCI organises online symposium on opportunities available in recycling

🔵 Dr Bin Daina presents success stories about turning waste into useful products

#### TDT | Manama

he Supreme Council for Environment is working to develop long-term waste management system in the Kingdom of Bahrain in cooperation with the relevant authorities and private sector.

This was confirmed by Special Envoy for Climate Affairs and CEO of the Supreme Council for Environment Dr Mohammed bin Mubarak Bin Daina who said it is based on the integrated national strategy for waste management approved by the Cabinet.

Dr Bin Daina took part yes- Affairs and Urban Planning. terday in a symposium entitled "Opportunities Available ing the Council's future plans and in Recycling" which was held current projects and referred to a remotely and organised by the number of success stories about Bahrain Chamber of Commerce investing in waste recycling, and Industry (BCCI) in coopera- treatment and reuse in cooperation with the Council and Min- tion with the private sector.

Undersecretary Shaikh Mohammed bin Ahmed Al Khalifa said that the Works Ministry, velopment in line with Bahrain's with the help of experts in this Economic Vision 2030.

field, is currently studying the establishment of a waste recycling plant.

The Ministry is expecting the completion of research studies for this project soon for its implementation.

Shaikh Mohammed said that the Ministry, in cooperation with the private sector, has succeeded in setting up a pilot project to recycle construction and demolition waste, which amounts to 600,000 tonnes. They were treated and turned into useful products.

About 79,000 tonnes of green waste were also recycled and converted into fertilisers, and reused last year.

The Undersecretary revealed that the largest volume of waste comes from household, followed by construction and building materials, and industrial and commercial products.

With regard to waste tyres, he said that Bahrain exports large quantities of it to Malaysia for recycling. The Kingdom produces 8,939 tonnes of waste tyres annually that are dumped at the Askar landfill.

Meanwhile, BCCI's Industry and Energy Committee chairman Farid Badr stressed that plans are underway to implement various programmes on sustainable de-

Shaikha Mai bint Mohammed Al Khalifa. President of Bahrain Authority for Culture and Antiguities (BACA). received in her office yesterday a team of experts documenting archaeological sites led by Professor Fulvio Rinaudo, Secretary General of the Council and Secretary General of the International Council on Antiquities and Sites (ICOMOS), and in cooperation with Dr Una Felix, a heritage conservation expert from the Institute of Archeology University College London and member of the Board of Directors of the International Council on Monuments and Sites (ICOMOS). A number of experts and professors from the University of Applied Sciences in Turin, Italy were also present. The project comes in cooperation with the Arab Regional Center for World Heritage in order to document the historical castles in the Kingdom of Bahrain such as the Qal'at Al Bahrain registered on the UNESCO World Heritage List, Shaikh Salman bin Ahmed Al Fateh Castle in Riffa, Bu Maher Castle and Arad Castle in Muharraq. Shaikha Mai stressed the importance of documenting historical sites and castles in Bahrain, which reflect the rich history and culture of the Kingdom and the civilisation.

### National Disaster Management Committee meeting

Chief of Public Security, Lieutenant-General Tariq Al Hassan, yesterday chaired the virtual meeting of the National Disaster Management Committee, with the participation of the concerned ministries' representatives. The Chief valued the roles of medics in protecting the health and general safety of the public. He applauded the directives of the Interior Minister General Shaikh Rashid bin Abdullah Al Khalifa to ensure the precise implementation of preventive measures, including wearing masks, social distancing and taking legal steps against violators.
