Abbas barred from UN talks

AFP | Washington

A US official said yesterday that Palestinian Authority president Mahmud Abbas is among 80 officials being denied visas to attend next month’s UN General Assembly, where France is leading a push to recognise a Palestinian state.

“Abbas is affected by this action along with approximately 80 other PA officials,” a State Department official said in a statement, detailing those impacted by the extraordinary decision announced on Friday by the US, a key ally of Israel.

Arad building fire

TDT | Manama

Civil Defense contained a fire that broke out in a residential building in Arad.

The National Ambulance transferred the injured to hospital, where their condition was reported stable.

Houthi Premier, ministers killed in Israeli strike

AFP | Sanaa

Yemen’s Houthi rebels said yesterday their prime minister and other ministers were killed in an Israeli air strike earlier this week, the most senior officials known to have died in a series of attacks during the Gaza war.

Workplace comfort

MPs study draft amendment requiring suitable seats for women at work

Mohammed Darwish
TDT | Manama

Parliament’s Services Committee is studying a draft amendment to the Labour Law in the Private Sector to require employers to provide suitable seating for women at work.

The proposal is being prepared for debate in the next session and for presentation in the fourth session of the current legislative term.

Its aim is to ensure a comfortable and safe workplace for women employees.

MP Hanan Fardan, a main sponsor, said the draft seeks to protect women’s rights by obliging employers to offer appropriate seats for female staff, creating conditions that support productivity and job stability.

Complaints

She said the idea followed repeated complaints from Bahraini staff in shops and private companies who were made to stand for whole shifts under a policy she described as ‘enslavement’, exploiting a woman’s need for work.

The lawmaker said such treatment is inhuman and unacceptable.

Supporters argue that the chance to sit during long hours eases strain, lifts morale and raises output and loyalty, which also serves employers.

They add that passing the measure would advance social justice and equal opportunity.

According to the proposal’s explanatory memorandum, the Constitution requires the state to balance a woman’s duties to her family with her work in so-

“The draft seeks to protect women’s rights by obliging employers to offer appropriate seats for female staff, creating conditions that support productivity and job stability.”

- MP HANAN FARDAN

ciety and to guarantee equality with men in political, social, cultural and economic life without prejudice to Islamic sharia.

The memorandum says the duty to provide seats would apply in all workplaces, even where tasks involve movement.

Long shifts

Regular sitting during long shifts, it notes, reduces fatigue, improves performance and cuts absenteeism.

It adds that seating helps prevent injuries linked to long periods of standing, especially in roles that demand constant activity.

Providing seats, it says, gives women a sense of comfort and safety, which supports better mental health and higher output, to the employer’s gain.

The explanatory memorandum states that seating for women workers is essential to protect health, improve performance and invest in human capital, and that it would help to reduce harassment and violence in the workplace, with a likely rise in employee loyalty.

On humanitarian and social grounds, it says a working woman has a right to conditions that offer comfort in line with her health, especially during pregnancy or urgent medical needs, and that the proposal matches national goals to support women in the labour market.

Biggest rescue operation

Floods displace half a million people in Pakistan

AFP | Lahore

Nearly half a million people have been displaced by flooding in eastern Pakistan after days of heavy rain swelled rivers, relief officials said yesterday, as they carried out a massive rescue operation.

Three transboundary rivers that cut through Punjab prov-

ince, which borders India, have swollen to exceptionally high levels, affecting more than 2,300 villages.

Nabeel Javed, the head of the Punjab government’s relief services, said 481,000 people stranded by the floods have been evacuated, along with 405,000 livestock.

Overall, more than 1.5 million

people have been affected by the flooding.

“This is the biggest rescue operation in Punjab’s history,” Irfan Ali Khan, the head of the province’s disaster management agency, added at a press conference.

He said more than 800 boats and over 1,300 rescue personnel were involved in evacuating fam-

ilies from affected areas, mostly located in rural areas near the banks of the three rivers.

The latest spell of monsoon flooding since the start of the week has killed 30 people, he said, with hundreds left dead throughout the heavier than usual season that began in June.

“No human life is being left unattended. All kinds of rescue ef-

orts are continuing,” Khan said.

More than 500 relief camps have been set up to provide shelter to families and their livestock.

In the impoverished town of Shahdara, on the outskirts of the provincial capital of Lahore, dozens of families were gathered in a school after fleeing the rising water in their homes.

Al Mubarak Praises Bondy

Praise marks envoy’s farewell

H.E. Eng. Wael bin Nasser Al Mubarak with H.E. U.S. Ambassador Steven C. Bondy

- Minister lauds coordination efforts
- Ambassador expresses heartfelt gratitude

Mahir Haneef
TDT | Manama

His Excellency Eng. Wael bin Nasser Al Mubarak, Minister of Municipalities Affairs and Agriculture, praised U.S. Ambassador Steven C. Bondy for his role in strengthening coordination and cooperation between Bahrain and the United States.

Receiving the envoy as he concludes his tenure, the minister stressed the importance of the longstanding historical relations between the two nations. He expressed sincere appreciation for Ambassador Bondy’s efforts in reinforcing these connections and wished him continued success in his future endeavors.

Ambassador Bondy, in return, voiced deep gratitude for the support and cooperation he received during his service in Bahrain. He said that this support helped advance bilateral relations toward broader horizons and extended his best wishes for Bahrain’s continued prosperity.

The exchange underscored the depth of diplomatic and institutional cooperation that has long defined the Bahrain–U.S. partnership.

As Ambassador Bondy prepares to depart, both parties highlighted a shared optimism that the partnership between the two countries will continue to grow stronger in the coming years.

Vatel Bahrain Enters KSA

- First Open Day in Saudi Arabia
- Bachelor’s and Master’s programmes showcased
- GCC push to build hospitality leaders

Mahir Haneef
TDT | Manama

Vatel Bahrain has staged its first-ever Open Day in Saudi Arabia’s Eastern Province, marking a new milestone in the Kingdom’s drive to expand its regional reach in hospitality education.

Held at the Aloft Dhahran Hotel, the event introduced Saudi, Gulf, and international students to the College’s programmes in International Hotel Management, including the Bachelor’s course and the newly launched Master’s programme. Both offerings combine academic theory with hands-on training in leading hotels worldwide, giving graduates a competitive edge for leadership roles across the tourism and hospitality sectors.

Shaikh Khaled bin Khalifa Al Khalifa, General Director of Vatel Bahrain, said the event underscored the College’s ambition to attract more interna-

Shaikh Khaled bin Khalifa Al Khalifa speaks at the event

tional students, particularly from Saudi Arabia. He noted that Vatel Bahrain is already listed as one of the recommended higher education institutions for Saudi students to enroll in, a recognition that reflects the growing synergy between Bahrain and its Gulf neighbour.

“The Open Day in Dhahran represents a significant step in our expansion efforts and aligns with the rapid growth of the hospitality sector both in Saudi Arabia and the wider region,” Shaikh Khaled said.

Students attending the event were briefed on the strong employment prospects available to Vatel graduates, backed by guaranteed internships in four-star and five-star hotels. These placements are designed to provide valuable international exposure and practical experience, preparing graduates for

diverse roles in the industry.

Mr. Mohammed AlMubarak, representing Aloft Dhahran, described the initiative as a reflection of the shared vision of Bahrain and Saudi Arabia to nurture young talent capable of advancing the region’s hospitality industry to international standards. “We are proud to host this landmark event and highlight the opportunities available within this vibrant sector,” he said.

Cross-border vision

By holding its first Open Day outside Bahrain, Vatel signals a stronger cross-border collaboration in building hospitality education pipelines that match the region’s economic ambitions. For students, the Dhahran event offered a direct channel to world-class programmes and career pathways that can shape the future of tourism in the Gulf.

Welfare support

Employers' social insurance to rise 20 per cent by 2028; staff rate stays 7 per cent

Mohammed Darwish
TDT | Manama

Employers' social insurance contributions will rise 1 percentage point a year to 20 per cent by 2028.

Staff remain on 7 per cent, with the employers' rate moving from 17 per cent now to 18 per cent in 2026.

The changes were set out by Nawal Al Owaid from the Social Insurance Organisation's Legal Affairs Department during an online workshop on insurance rights and benefits for public sector employees.

She said the revised rates cover private-sector staff in Bahrain and Bahraini citizens working in GCC states under the compulsory insurance scheme.

Pension

Al Owaid outlined pension eligibility in plain terms. An old-age pension is due after 15 years' service at age 60, or after 20 years' service if employment ends before 60.

Where service falls short of the qualifying period, a lump-sum payment is made instead. Fractions of a service year are rounded

Image used for illustrative purposes only up once they reach six months.

Fraction

If the fraction is under six months, the insured person may ask for a refund of contributions — both the employee's and the employer's shares — keep paying under optional insurance to complete a full year, or buy the missing period.

On a 90 per cent pension, the system offers two routes once

actual service totals 45 years.

Either a 15 per cent bonus is paid for service beyond 40 years, capped at seven years, or 10 per cent is added to the pension for five extra years, taking entitlement to 90 per cent.

Subscriptions

For example, someone with 47 years of subscriptions would receive a 90 per cent pension for 45 years plus a 15 per cent bonus

The revised rates cover private-sector staff in Bahrain and Bahraini citizens working in GCC states under the compulsory insurance scheme.

for the remaining two.

Only one pension may be paid under the pension and insurance laws.

If more than one is due, the higher amount is paid or the difference is made up.

Widow

Exceptions set out in law include a widow who may draw her pension alongside her late husband's, children who may

combine both parents' pensions, parents who may combine the pensions of a son and daughter, and a dependent husband who may draw his pension with that of his late wife.

Work injury covers accidents that occur during or because of work, occupational diseases, work-related strain and road accidents.

The law also allows insured persons to extend their contribution record by adding previous service, adding cashed-out service or counting a notional period, and it offers financial options such as commutation.

Framework

Al Owaid said the framework for insurance rights and benefits rests on the principle that social insurance is a human right.

The Social Insurance Organisation aims to explain insurance periods, financial entitlements and pension eligibility so employees understand their rights.

The compulsory system, she added, is designed to protect workers when a social risk removes daily income by providing a replacement income under clear rules.

Ministry sets out separate toilets, safe-dismissal drills for Grade 1

TDT | Manama

Public schools have been told to run a new Grade 1 induction from day one of the 2025–26 year, with separate toilets and safe-dismissal drills set out in a ministry guide.

The Ministry of Education has circulated the guidance to all public schools.

It sets out daily activities to introduce students to their classrooms and the wider school, help them make friends and settle into a steady routine.

Handover

Sessions are to be split before and after the first break, with practice runs for end-of-day handover.

The programme is designed to ease the move into basic education through practical tasks that lower anxiety, provide psychological and social support, build confidence and discipline and establish healthy and sporting habits from the outset.

It also aims to strengthen contact between home and school so parents can back their children in the first weeks, while instilling national values.

Guardians of Safety

Community police and guards trained to protect students

- Training on safe crossings
- Communication with parents
- Cooperation to reduce violations

Mahir Haneef
TDT| Manama

When the morning school rush begins, Bahrain's school guards and community police are stepping into a new role, trained not only to manage traffic but also to become sentinels of safety for the Kingdom's youngest citizens and residents.

The Ministry of Interior announced that the General Directorate of Traffic has launched training and refresher courses targeting community police and school guards in both the public and private sectors. The initiative is part of an integrated plan, carried out in cooperation with the Ministry of Education, to secure a safer traffic environment around schools.

Focused training

According to the Ministry, the courses cover several key areas. Guards are being trained to secure school perimeters and develop communication skills with students and parents. They are also learning how to regulate traffic at school gates, address violations by unruly drivers dropping off children, and coordinate with one another to ensure smooth operations.

Bahrain's school guards and community police take part in the training and refresher courses

The concept of community policing, where officers work closely with citizens to solve safety problems, was first developed in the United States in the 1980s and has since been adapted worldwide.

The training stresses the im-

portance of distributing roles effectively, which contributes to ensuring safe student crossings and keeping parking orderly. Special attention is being given to designated pick-up and drop-off areas, particularly for school buses, with instructions to drivers to use only the assigned zones.

The General Directorate of Traffic has called on all parents and drivers to cooperate with the community police and school guards. By following their guidance and adhering to traffic rules, the Ministry said, parents can help ensure the safety of students, maintain smooth traffic flow in educational areas, and prevent accidents.

US appeals court finds Trump’s global tariffs **illegal**

AFP | Washington, United States

AN US appeals court on Friday ruled that many of President Donald Trump’s tariffs, which have upended global trade, were illegal -- but allowed them to remain in place for now, giving him time to take the fight to the Supreme Court.

The 7-4 ruling by the US Court of Appeals for the Federal Circuit affirmed a lower court’s finding that Trump had exceeded his authority in tapping emergency economic powers to impose wide-ranging duties.

But the judges allowed the tariffs to stay in place through mid-October -- and Trump swiftly made clear he would put the time to use.

The appeals court “incorrectly said that our Tariffs should be removed, but they know the United States of America will win in the end,” he said in a statement on his Truth Social platform lashing out at the ruling.

He added that he would fight back “with the help of the United States Supreme Court.”

The decision marks a blow to the president, who has wielded duties as a wide-ranging economic policy tool. It could also cast doubt over deals Trump

Since returning to the presidency in January, Trump has invoked the International Emergency Economic Powers Act (IEEPA) to impose “reciprocal” tariffs on almost all US trading partners, with a 10-percent baseline level and higher rates for dozens of economies.

has struck with major trading partners such as the European Union, and raised the question of what would happen to the billions of dollars collected by the United States since the tariffs were put in place if the conservative-majority Supreme Court does not back him.

Friday’s case, however, does not deal with sector-specific tariffs that the Trump administration has also imposed on steel, aluminum, autos and other imports.

Australia signs deal to send immigrants to Nauru

AFP | Sydney, Australia

Australia has announced an agreement with the tiny Pacific nation Nauru enabling it to send hundreds of immigrants to the barren island.

The deal affects more than 220 immigrants in Australia, including some convicted of serious crimes.

Home Affairs Minister Tony Burke signed the memorandum of understanding on a visit to Nauru, the government said in a statement Friday.

“It contains undertakings for the proper treatment and long-term residence of people who have no legal right to stay in Australia, to be received in Nauru,” it said.

“Australia will provide funding to underpin this arrangement and support Nauru’s long-term economic resili-

ence.”

Canberra did not provide financial details.

The Sydney Morning Herald said, however, that Australia would pay Nauru Aus\$408 million (US\$267 million) and about Aus\$70 million a year thereafter under the deal.

“Anyone who doesn’t have a valid visa should leave the country,” Burke said in a statement.

“This is a fundamental element of a functioning visa system.”

Australia’s government has been searching for a way to deal with immigrants who have no other country to go to when their visas are cancelled.

The High Court ruled in 2023 that indefinite detention was “unlawful” if deportation was not an option, leading to the release of 220 people.

India will not ‘bow down’, trade minister says after US tariffs

AFP | New Delhi, India

INDIA will not “bow down” and instead focus on capturing new markets, trade minister Piyush Goyal said in his first public remarks since Washington imposed steep tariffs on Indian goods.

The 50% levies on many Indian imports into the United

States took effect this week as punishment for New Delhi’s massive purchases of Russian oil, part of US efforts to pressure Moscow into ending its war in Ukraine.

Speaking at a construction industry event in New Delhi on Friday, Goyal said India was “always ready if anyone wants to have a free trade agreement

with us”.

But, he added, India “will neither bow down nor ever appear weak”.

“We will continue to move together and capture new markets.”

Exporters of textiles, seafood and jewelry have already reported cancelled US orders and losses to rivals such as Bangla-

desh and Vietnam, raising fears of heavy job cuts.

Goyal said the government would be coming out with several measures in the coming days to support every sector and boost exports.

“I can say with confidence that India’s exports this year will exceed 2024-25 numbers,” he said.

News in brief

◆ **The prime minister of Yemen's Huthis** was killed in an Israeli airstrike along with other officials earlier this week, the Iran-backed rebels announced yesterday. Ahmed Ghaleb Nasser Al-Rahawi, who was appointed last year, is the most senior official known to have been killed in a series of Israeli strikes during the war in Gaza. "We announce the martyrdom of the fighter Ahmed Ghaleb Nasser Al-Rahawi... along with several of his ministerial colleagues, as they were targeted by the treacherous Israeli criminal enemy," a Huthi statement said. "Others among their companions were injured with moderate to serious wounds and are receiving medical care since Thursday afternoon," it added. The Israeli military struck in the area of Sanaa, the Huthi-held capital, on Thursday. The Huthis, claiming solidarity with the Palestinians, have frequently fired missiles and drones at Israel during the Gaza war.

Pakistan evacuates half a million people stranded by floods

◆ **Nearly half a million** people have been displaced by flooding in eastern Pakistan after days of heavy rain swelled rivers, relief officials said yesterday, as they carried out a massive rescue operation. Three transboundary rivers that cut through Punjab province, which borders India, have swollen to exceptionally high levels, affecting more than 2,300 villages. Nabeel Javed, the head of the Punjab government's relief services, said 481,000 people stranded by the floods have been evacuated, along with 405,000 livestock. Overall, more than 1.5 million people have been affected by the flooding. "This is the biggest rescue operation in Punjab's history," Irfan Ali Khan, the head of the province's disaster management agency, added at a press conference.

◆ **Floods and landslides** triggered by record-breaking rain killed at least 11 people, including four children, in India's Jammu and Kashmir, officials said yesterday. An intense monsoon rainstorm in the Indian-administered territory since Tuesday has caused widespread chaos, with raging water smashing into bridges and swamping homes. A local disaster official told AFP that Ramban and Reasi districts were hit by heavy rainfall and landslides on Friday night, killing 11 people. One child aged five was trapped in the debris and still missing, he added. On Wednesday, a landslide slammed the pilgrimage route to the Hindu shrine of Vaishno Devi in Jammu, killing 41 people. India's Meteorological Department said the torrential rain had smashed records at two locations in the region. Jammu and Udhampur recorded their highest 24-hour rainfall on Wednesday, with 296 millimetres (11.6 inches) in Jammu, nine percent higher than the 1973 record, and 629.4 mm (24.8 inches) in Udhampur -- a staggering 84% surge over the 2019 mark.

Ancient tombs unearthed in Iraq due to drought

Kurdish members of the Dohuk Antiquities Department work on a grave unearthed on the banks of Mosul Dam on an archaeological site in the Khanke sub-district of Dohuk Governorate

AFP | Khanke, Iraq

Archaeologists in drought-hit Iraq have discovered 40 ancient tombs after water levels in the country's largest reservoir declined, an antiquities official said yesterday. The tombs, believed to be over 2,300 years old, were unearthed at the edges of the Mosul Dam reservoir in the Khanke region of Duhok province in the country's north. "So far, we have discovered approximately 40 tombs," said Bekas Brekany, the director of antiquities in Duhok, who is leading the archaeological work at the site. His team surveyed the area in 2023 but only spotted parts

of a few tombs.

They were only able to work on the site when water levels dropped "to their lowest" this year, Brekany said.

In recent years, archaeologists have uncovered ruins dating back thousands of years in the same area, as a result of droughts that have plagued Iraq for five consecutive years.

"The droughts have significant impact on many aspects, like agriculture and electricity. But, for us archaeologists... it allows us to do excavation work," Brekany said.

The newly discovered tombs are believed to date back to the Hellenistic or Hellenistic-Seleucid period, according to Brekany.

Modi arrives in Tianjin ahead of summit hosted by China

North Korea's Kim Jong Un will be among some 26 world leaders

Indian PM, Zelensky discuss Ukraine conflict

AFP | New Delhi, India

Indian Prime Minister Narendra Modi said yesterday he discussed restoring peace and stability in Ukraine with President Volodymyr Zelensky, ahead of a key meeting with Russian President Vladimir Putin in China.

Modi, who arrived in the Chinese port city of Tianjin earlier on Saturday for the Shanghai Cooperation Organisation summit, also said he extended India's "full support" during his telephone call with Zelensky.

"We exchanged views on the ongoing conflict, its humanitarian aspect, and efforts to restore peace and sta-

bility," Modi said in a social media post.

"India extends full support to all efforts in this direction," he added.

Modi is set to meet Putin on Monday on the sidelines of the summit which would be attended by leaders from more than 20 countries.

Zelensky, on his part, said he held "productive and important conversation" with Modi during which he reaffirmed Ukraine's readiness for a meeting with Putin.

"India is ready to make the necessary efforts and to deliver the appropriate signal to Russia and other leaders during the meetings on the sidelines of the summit," he said in a post on X.

● **Russian President Vladimir Putin is also due to arrive in Tianjin**

● **Summit will be attended by leaders from more than 20 countries**

● **United Nations chief Antonio Guterres met Xi yesterday**

AFP | Tianjin, China

Indian Prime Minister Narendra Modi touched down in the Chinese city of Tianjin yesterday evening, Indian TV networks showed, a day before a summit that will be attended by leaders from more than 20 countries.

The Shanghai Cooperation Organisation gathering will be held in the northern port city on Sunday and Monday, days before a massive military parade in nearby Beijing to mark 80 years since the end of World War II.

North Korea's Kim Jong Un will be among some 26

world leaders slated to attend the parade, though Modi was not on a list of attendees for the parade published by Chinese state media on Thursday.

Modi's visit -- his first to China since 2018 -- comes straight after a trip to Japan, which pledged to invest \$68 billion

in India. Xi began welcoming leaders including Cambodian Prime Minister Hun Manet and Egyptian Premier Mostafa Madbouly yesterday. Russian President Vladimir Putin is also due to arrive in Tianjin ahead of the summit.

Other leaders including Iranian and Turkish presidents Masoud Pezeshkian and Recep Tayyip Erdogan will also attend the bloc's largest meeting since its founding in 2001.

United Nations chief Antonio Guterres met Xi yesterday and

discussed "the need to strengthen multilateralism and reform international institutions, in particular the global financial architecture", according to a UN readout of the meeting.

Bilateral meetings

Multiple bilateral meetings are expected to be held on the sidelines of the summit.

The Kremlin said on Friday that Putin will discuss the Ukraine conflict with Erdogan on Monday. Putin will also meet with his Iranian counterpart Pezeshkian to discuss Tehran's nuclear programme on Monday, a meeting that comes as Iran faces fresh Western pressure.

Britain, France and Germany, known as the E3, triggered a "snapback" mechanism on Thursday to reinstate UN sanctions on Iran for failing to comply with commitments made in a 2015 deal over its nuclear programme.

The SCO comprises China, India, Russia, Pakistan, Iran, Kazakhstan, Kyrgyzstan, Tajikistan, Uzbekistan and Belarus. Another 16 countries are affiliated as observers or "dialogue partners".

China's Indian community accorded a very special welcome in Tianjin

CAPTAIN'S CORNER

Why reporters' lives matter

CAPTAIN MAHMOOD AL MAHMOOD

In the nearly 23 months of Israeli military operations in the Palestinian territory, journalists have emerged as among the most targeted professionals. According to Reporters Sans Frontiers data, more than 210 journalists have been killed by the Israeli army in the Gaza Strip, during this conflict. At least 56 of them were intentionally targeted by the Israeli army or killed while doing their job.

This is a dangerous trend. Over the years of modern warfare, it has always been a recognized practice that some professionals, whose work puts them in the line of fire, should be given every opportunity to do their work and be protected from bullets and death. Doctors, nurses, reporters were on top of this list.

Alas, this rule seems to have been missed in the Israel attack and there is, instead an active picking out of journalists and silencing them with bullets.

Why is this symptomatic of a deeper and more troubling problem? Even in this social media-driven times when even youth record war crimes casually on their phones and post it online, the work of reporters trained to sift fact from lies and place them before the world is of paramount importance. It frames the conflict in clearer terms and long after the war has finished, these accounts of reality will be our terms of reference in moving forward.

The world must protest against the brutal killing of journalists – of course, one may argue that their lives are not more valuable than those of the innocent civilians and children dying every day. But by silencing their voices, Israel is setting the stage for a 'no questions asked' regime where authoritarianism will erase dangerous human rights and democracy violations simply by eliminating those with access to the reality and who can take that message to the masses.

Every nation needs to raise its voice against this targeting of reporters – it does not mean we care any less for the other atrocities but we need to record our protest so that future generations searching for the truth of Israeli erasure of its genocide and barbarity, will know that we did our best to protect those who laid down their lives to bring the truth to the world.

(Captain Mahmood Al Mahmood is the Editor-in-Chief of The Daily Tribune and the President of the Arab-African Unity Organisation for Relief, Human Rights and Counterterrorism)

EU urges US to reconsider visa denial for Palestinians

A Palestinian man carries the shrouded body of a baby killed in an Israeli strike on a makeshift bakery housed in a tent on Al-Nassr Street in Gaza City

AFP | Copenhagen, Denmark

The EU wants the United States to reconsider its decision to deny visas to Palestinian officials seeking to attend next month's UN General Assembly, the bloc's top diplomat said yesterday.

"In the light of the existing agreements between the UN and its host state, we all urge for this decision to be reconsidered," Kaja Kallas said on Saturday following a meeting of EU foreign ministers in Copenhagen.

Kallas invoked "international law" in calling for Washington to reverse the extraordinary step, which further aligns US President Donald Trump's administration with Israel's government as it wages war in Gaza.

The US move comes as France is leading a push to recognise the Palestinian state at the gathering of world leaders in New York -- and France's foreign minister Jean-Noel Barrot spoke out in protest ahead of the Denmark talks.

"A UN General Assembly meeting... should not be subject to any restrictions on access," Barrot told reporters.

A string of ministers in Copenhagen echoed France's call for the United States to allow access to the Palestinian delegation.

The Palestinian Authority has likewise called for the United States to reverse its decision, which it said "stands in clear

Red Cross head says mass evacuation of Gaza City 'impossible'

AFP | Geneva, Switzerland

The head of the international Red Cross on Saturday denounced Israel's plans for a mass evacuation of Gaza City ahead of a military takeover, insisting there was no way it could be done safely.

"It is impossible that a mass evacuation of Gaza City could ever be done in a way that is safe and dignified under the current conditions," International Committee of the Red Cross president Mirjana Spoljaric said in a statement.

A vehicle towing a cart, both carrying cisterns and other belongings of displaced Palestinians fleeing south

contradiction to international law and the UN Headquarters Agreement". Palestinian Authority president Mahmud Abbas, a veteran 89-year-old leader who once had cordial relations with Washington,

had planned to attend the UN meeting. Under an agreement as host of the United Nations in New York, the United States is not supposed to refuse visas for officials heading to the world body.

US warship enters Panama Canal, heading toward Caribbean

AFP | Panama City, Panama

A US guided missile cruiser, USS Lake Erie, was seen crossing the Panama Canal from the Pacific to the Caribbean Friday night, after the Trump administration deployed warships near the coast of Venezuela.

AFP journalists saw the naval vessel passing through one of the canal's locks at around 9:30 pm (0230 GMT Saturday)

and navigating east toward the Atlantic.

The United States has said the deployment of warships to the southern Caribbean, near Venezuela's territorial waters, was an anti-drug trafficking operation.

"I didn't know the ship was going to pass... I was surprised," Alfredo Cedeno, a 32-year-old health technician, who took photos of the cruiser, told AFP.

The Lake Erie had been moored for the past two days at the Port of Rodman, at the canal's Pacific entrance.

Washington has accused Venezuelan President Nicolas Maduro of leading a drug cartel and has doubled the bounty for his capture to \$50 million.

The United States has, however, made no public threat to invade Venezuela.

A woman takes pictures as the US Navy warship USS Lake Erie (CG 70) crosses the Pedro Miguel Locks of the Panama Canal amid an US naval deployment near the coast of Venezuela in Panama City

German firm gives 'second life' to used EV batteries

Tesla amps up the game with new Model Y Performance

TDT | agencies

Tesla has introduced the new Model Y Performance, bringing more power, sharper design and improved features. The SUV is powered by the same dual 'Performance 4DU' motors as the top-spec Model 3, delivering 450 BHP and sprinting from 0-60 mph (96 kph) in just 3.3 seconds, before topping out at 155 mph (250 kph). A new high-density battery cell lets the Model Y Performance almost match the range of the standard AWD version despite its extra power. Tesla claims up to 360 miles (579 km) on a single charge.

Chassis upgrades include adaptive dampers borrowed from the Model 3 Performance but with bespoke tuning, plus new suspension. On the outside, the car gains a sleeker front bumper, diffuser-style rear, carbon spoiler, 21-inch sports alloys and red brake calipers. Inside, it features Tesla's largest and highest-resolution 16-inch touchscreen to date, alongside heated and ventilated sports seats with bigger side bolsters. Built at Tesla's Brandenburg factory near Berlin, the Model Y Performance will first launch in Europe and the Middle East, with deliveries starting in October. Prices begin at £61,990 (US\$83,630).

Jeep updates Meridian (Commander) with refreshed styling and tech

TDT | agencies

Jeep has unveiled the facelifted Meridian for Brazil, where it is sold as the Commander. The mid-cycle update introduces subtle exterior and interior changes while adding more features. On the outside, the Commander now sports revised LED headlamps with integrated DRLs, sleeker LED taillights connected by a light bar, a redesigned front bumper, new alloy wheels, and dual exhaust outlets. The cabin receives new upholstery and a rotary gear selector. Available in both 5- and 7-seat layouts, the SUV also offers a 360-degree

camera system and Level 2 ADAS. For Brazil, three engine options are on offer: a 1.3-litre turbo flex-fuel unit paired with a 6-speed automatic, along with 2.0-litre turbo-petrol and 2.2-litre diesel options for AWD variants, both mated to a 9-speed automatic.

YOU KNOW WHAT

Building an EV battery does create more emissions upfront (sometimes up to 2x that of building a petrol car engine), but once on the road, an EV quickly "pays back" this carbon debt. Studies show that within about 1-2 years of driving, the total greenhouse gas emissions of an EV fall below that of a gasoline vehicle – and over a 10-year lifespan, an EV can cut emissions by 50-70%, depending on the electricity grid mix.

AFP | Aachen, Germany

A German company is putting used electric vehicle batteries to new use by stacking them into fridge-size units that homes and businesses can use to store their excess solar and wind energy. This week, the company Voltfang -- which means "catching volts" -- opened its first industrial site in Aachen, near the Belgian and Dutch borders. With around 100 staff, Voltfang says it is the biggest facility of its kind in Europe in the budding sector of refurbishing lithium-ion batteries.

A worker assembles battery units at the production site of Voltfang, a developing and manufacturing battery storage producer, in Aachen, western Germany

Its CEO David Oudsandji hopes it will help Europe's biggest economy ween itself off fossil fuels and increasingly rely on climate-friendly renewables. While wind turbines now dot Germany's countryside and photovoltaic panels are found on many rooftops, he says the country still needs to build up battery storage capacity. "We want to ensure European sovereignty in energy supply by enabling renewable energy production through storage," Oudsandji, 29, told AFP. "We can generate enormous amounts of electricity from solar

and wind energy, then store it in a decentralised way all across Germany and distribute it," he said. "This means that the more renewable energy we use, the more storage capacity we deploy, the less we need fossil gas or oil." Inside the site, technicians receive used EV batteries and test them to determine their remaining lifespans. Those still found to be in good condition are reconditioned for their "second life" and fitted inside cabinets the size of large refrigerators -- effectively huge power banks for excess electricity. Among the first customers is the discount supermarket chain Aldi Nord, which wants to store power from its rooftop solar panels for later use. Clean energy push Voltfang, founded in 2020 by three university engineering students, aims to produce enough systems by 2030 to store a capacity of one gigawatt-hour

(GWh) of electricity per year, enough for 300 homes. It is one of many small steps meant to help Germany's decades-old "Energiewende", or energy transition. Last year, renewables covered nearly 60 percent of electricity produced in Germany, and the target is 80 percent by 2030. One problem for solar and wind is what to do on days when the sun doesn't shine and the wind doesn't blow. Such "dark lulls", most common in winter, have at times forced Germany to temporarily import power produced by French nuclear reactors or Polish coal plants. To guarantee a secure supply, conservative Chancellor Friedrich Merz's government plans to build around 20 new gas-fired power plants by 2030. The Greens and environmental groups have denounced this as a step backwards in German climate policy and fear the country will not meet its goal of carbon neutrality by 2045.

Jaguar Type 00

Actor Scott Eastwood joined Jaguar at the prestigious Monterey Car Week earlier this month, to celebrate the world premiere of the Jaguar Type 00. The unveiling marks a bold new design chapter for the iconic British luxury brand. Presented against the backdrop of California's Monterey Peninsula -- home to some of the world's most celebrated automotive showcases -- the Type 00 drew attention with its sleek proportions, futuristic lighting signature, and aerodynamic lines that pay homage to Jaguar's rich design heritage. Inside, the Type 00 features a driver-focused cockpit with sustainable luxury materials, advanced connectivity, and Jaguar's latest electric powertrain technology, reflecting the brand's transition to an all-electric future by 2030.

Swimmers add two more silvers in Casablanca

Asmaa Lafflair and Noor Taha shine, medal tally climbs to 7

Asmaa Lafflair and Noor Taha shine as Kingdom's medal tally climbs to seven

● **Lafflair and Taha deliver podium finishes**

● **Team total climbs to seven medals**

● **Championship runs until tomorrow in Morocco**

TDT | Manama

Bahrain's national swimming team continued their strong showing at the 4th Arab Age Group Aquatics Championships, adding two more silver medals on the second day of action in Morocco.

Asmaa Lafflair claimed silver in the women's 100m freestyle (19 years and above) with a time of 1:00.11 minutes, while teammate Noor Taha followed suit shortly after, taking second place in the 50m backstroke (19 years and above), clocking 31.80 seconds.

With these latest results, the Kingdom's tally at the halfway stage of the meet now stands at seven medals (six silvers and one bronze). Bahrain had launched their campaign in style on the opening day, securing four silvers and a bronze.

The nationals are determined to carry this momentum forward as the competition continues until September 1, with hopes of expanding their medal haul in what has already

This is the fourth edition of the Arab Age Group Aquatics Championships, bringing together the region's brightest young swimmers

been a fruitful campaign. The championship, hosted in Casablanca, brings together top age-group swimmers from across the Arab world, highlighting regional talent and offering young athletes valuable international exposure.

Bahrain open Asia Cup campaign against Australia

Arab, Gulf champions set sights on strong start in Mongolia

● **Bahrain face Australia in today's opener**

● **Group A also includes Lebanon, India**

● **Top four qualify for 2026 World Cup**

TDT | Manama

Bahrain's youth men's basketball national team tip off their Fiba U16 Asia Cup 2025 campaign this morning, facing Australia in their Group A opener at 6:30am (Bahrain time) in Ulaanbaatar, Mongolia.

The nationals, who arrive at the continental championship as reigning Gulf and Arab champions, are looking to carry their regional dominance onto the Asian stage. They face Lebanon tomorrow at 9am before wrapping up their group phase against India on Monday, also at 9am.

Back-to-Back Titles

The squad, under Tunisian head coach Rassem Marzooqi, come into the tournament with momentum. In July, they captured the Fiba U16 Asia Cup GBA

Bahrain's U16 players during their official photo shoot ahead of the Asia Cup

Qualifiers 2025 title at home to punch their ticket to Ulaanbaatar. They then added another trophy by winning the 22nd U16 Arab Basketball Championship crown in Cairo.

Marzooqi has stressed the importance of discipline and consistency as his players prepare to face Asia's elite. Bahrain are representing the Gulf Basketball Association alongside Saudi Ara-

bia, who are drawn in Group D. **Group A Challenge**

Bahrain's Group A campaign promises to be demanding. Australia, who are the perennial contenders on the global stage, will provide the first test this morning. Lebanon, a rising force in youth basketball, await tomorrow, while India round off the group phase.

The group winners advance directly to the quarter-finals. Teams finishing second and third will contest a play-off on September 4 for a spot in the last eight.

Road to Istanbul

The Fiba U16 Asia Cup, now in its eighth edition, also serves as the qualifier for the 2026 Fiba U17 World Cup in Türkiye. The top four finishers in Ulaanbaatar will secure their place in Istanbul.

Bahrain are making their sixth appearance, and their third consecutive showing at the competition. Their best result came in 2013 in Tehran, when they finished eighth, while their last outing in 2023 in Doha saw them place 15th.

What's Next

Should Bahrain progress past the group stage, the knockout rounds begin September 4. The semi-finals are set for September 6, followed by the medal games on September 7, when the Asian champions will be crowned.

Keritchenko **dominates** Freediving showdown

Bahraini season sees record 4:44 underwater feat

Hussain Almaskati
TDT | Manama

Russian-born Bahraini resident Andrei Keritchenko claimed first place in the Freediving – HH Shaikh Khalid bin Hamad Al Khalifa Round, part of the 8th Nasser Bin Hamad Season for Maritime Heritage Sports. The competition was held in the waters adjacent to the Yacht Marina on Amwaj Islands.

Keritchenko, who won the title in last year's edition, posted a remarkable 4 minutes and 44 seconds underwater, setting the benchmark for the event and outlasting his rivals. Mahmood Mohammed Al Jasnir finished second with 4 minutes and 14 seconds, while Fahad Ahmed Al Boustah took third place in 3 minutes and 29 seconds.

The contest attracted around 50 participants, featuring amateur enthusiasts and maritime

sports fans alike, all competing in a highly organized setting with strict safety measures in place. Spectators enjoyed the action-packed event along the coastline.

The freediving competition forms part of the broader Nasser Bin Hamad Season for Maritime Heritage Sports, which began in July and runs through mid-November. The season includes open-water swimming races, pearl diving, traditional rowing competitions, fish-catching contests, and the

newly introduced "Al Niham" event, featuring participants from Gulf Cooperation Council countries.

The season is organized under the directives of HH Shaikh Nasser bin Hamad Al Khalifa, Representative of His Majesty the King for Humanitarian Work and Youth Affairs, and President of the Supreme Council for Youth and Sports, aiming to celebrate Bahrain's maritime heritage and instill national pride in younger generations.

Smiling Gauff romps into US Open last 16

New York, United States

Coco Gauff shrugged off her early round struggles to move into the last 16 of the US Open on Saturday with a straight-sets victory over Poland's Magdalena Frech.

Gauff, who had been reduced to tears during a laboured win over Donna Vekic on Thursday, produced her best performance of the tournament to down 28th seed Frech 6-3, 6-1 in one hour 13 minutes.

The American third seed's preparations for the US Open were thrown into turmoil when she took the decision to shake up her coaching team in an effort to improve her service game, just days before competition got under way.

While her serve remained a problem in the opening rounds, Gauff got it working smoothly in Saturday's match on the Arthur Ashe Stadium court.

Alcaraz, Djokovic into US Open last 16 as Sabalenka avenges defeat

AFP | New York, United States

Carlos Alcaraz and Novak Djokovic moved closer to a potential semi-final clash at the US Open on Friday, while Aryna Sabalenka avenged a painful defeat to power into the women's last 16.

Spanish second seed Alcaraz swept aside Italian 32nd seed Luciano Darderi 6-2, 6-4, 6-0 in just one hour 44 minutes on Arthur Ashe Stadium. The 2022 champion will face France's Arthur Rinderknech next, who beat compatriot Benjamin Bonzi in four sets. Alcaraz required a medical timeout for treatment on his right knee but said afterwards he had no injury concerns.

Djokovic, chasing a record 25th Grand Slam singles crown, battled past Britain's Cam Norrie 6-4, 6-7 (4/7), 6-2, 6-3 in the evening session. The 38-year-old Serb became the oldest man to reach the US Open last 16 since Jimmy Connors in 1991. He next meets German veteran Jan-Lennard Struff, who ended American hopes with a straight-sets win over Frances Tiafoe.

Tiafoe admitted the loss left him "very, very down," while fellow American Ben Shelton

was also forced out, retiring in tears against Frenchman Adrian Mannarino with a left shoulder injury. That left Taylor Fritz, last year's runner-up, to carry home hopes. The fourth seed overcame Swiss qualifier Jerome Kym 7-6 (7/3), 6-7 (9/11), 6-4, 6-4.

In the women's draw, world number one Sabalenka banished the memory of her 2021 semi-final defeat to Leylah Fernandez, beating the Canadian 6-3, 7-6 (7/2). "I wanted this revenge badly," said Sabalenka, who extended her remarkable tie-break record to 18 straight wins. She now faces Spain's Cristina Bucsa, who upset Elise Mertens.

Elsewhere, American Taylor Townsend stunned fifth seed Mirra Andrejeva 7-5, 6-2, while ninth seed Elena Rybakina

eased past Britain's Emma Raducanu 6-1, 6-2. Rybakina will meet Wimbledon champion Marketa Vondrousova, a straight-sets winner over Italian Jasmine Paolini.

US fourth seed Jessica Pegula also progressed, defeating Victoria Azarenka 6-1, 7-5 to set up an all-American clash with Ann Li in the fourth round.

Bassam Al Dhaif with his Grand Slam gold medal in China

Bassam Al Dhaif strikes grand slam **gold**

Teen taekwondo talent wins world title in China

● **Bassam Al Dhaif wins Grand Slam gold**

● **Victory achieved at age just 17**

● **Trains in Oman but stays tied to Bahrain**

Hussain Almaskati
TDT | Manama

Bahraini taekwondo prodigy Bassam Hassan Al Dhaif won gold at the World Taekwondo Grand Slam. The annual event, hosted in China, attracts competitors from dozens of nations worldwide. Al Dhaif competed as part of a squad alongside players from Oman.

At just 17 years old, Bassam's success highlights the ambition and talent of Bahrain's rising generation. He dedicated the achievement to His Majesty the King, the government and people of Bahrain, as well as to HH Shaikh Nasser bin Hamad Al Khalifa, Representative of HM the King for Humanitarian Work and Youth Affairs and President of the Supreme Council for Youth and Sports, and HH Shaikh Khalid bin Hamad Al Khalifa, First Deputy President of the Supreme Council for Youth and Sports, President of the General Sports Authority, and President of the Bahrain Olympic Committee.

Path to Victory

Bassam revealed the victory was the result of long-term physical and mental preparations, including participation in both local and international competitions. He credited his coaches, Master Adel Al Wuhaibi and Mohammed Al Mahrouqi from Oman, as well as his parents, for their unwavering support.

"I focused on applying my coaches' tactical advice in every bout, using my strikes with precision and skill against each opponent until I reached the gold," Bassam said.

To continue developing his abilities, Bassam joined a world-renowned taekwondo academy in Oman, competing with their team in high-level tournaments that refined his technique and boosted his experience. Despite his move, he maintains close ties to Bahrain, training with local academies during his visits to further strengthen his skills and address areas for improvement.

The World Taekwondo Grand Slam, staged annually in China, is one of the sport's most prestigious events, drawing elite athletes from across the globe.

Pole for Piastri at Dutch GP in McLaren lock-up

Fifth pole position of the season for the Australian driver

● McLaren maintained their dominance of Formula One

● Verstappen qualified in third position

● Rookie driver Isack Hadjar scored an impressive fourth place

AFP | Zandvoort, Netherlands

Oscar Piastri snatched pole position Saturday for the Dutch Grand Prix, locking up the front of the grid with his teammate Lando Norris as McLaren maintained their dominance of Formula One.

Piastri clocked a lap record time of one minute 8.662 seconds, 0.012 seconds ahead of Norris to give himself a valuable advantage for Sunday's race.

It was the fifth pole position of the season for the Australian driver, who is seeking to extend his nine-point world championship lead over Norris.

Norris had had the edge over

McLaren's Australian driver Oscar Piastri (R) is congratulated by McLaren's British driver Lando Norris after winning the pole position during the qualifying session of the Formula One Dutch Grand Prix at The Circuit Zandvoort, western Netherlands

the Australian in all three practice sessions so far, but Piastri hit back when it counted to give himself an advantage for the race.

"That was the definition of

peaking at the right time," Piastri said after the qualification.

"It was looking like a bit of a tricky weekend so far so to come out with that, I'm pretty stoked."

Norris was phlegmatic

about his second place on the grid, noting there was barely anything between the two McLarens.

"There's not too much to complain of. I think there were a

McLaren is the only racing team in history to have won the Formula 1 World Championship, the Indianapolis 500, the 24 Hours of Le Mans, and the Canadian-American Challenge Cup (Can-Am). This rare achievement, often called the "Triple Crown of Motorsport" (with Can-Am dominance added), highlights McLaren's legacy across multiple racing disciplines.

couple of places where I wasn't quite on a good enough limit and consistently losing a bit too much lap time today," he told reporters. "So, some places and things I need to work on, but otherwise the laps were good and I'm still pretty happy."

'Very happy'

Home favourite Max Verstappen -- in the unfamiliar position of outsider for his home Grand Prix -- qualified in third position.

Verstappen currently sits 97 points behind Piastri in the world championship standings and has admitted that his Red Bull is off the pace this season.

He will be hoping that the famously unpredictable weather at the North Sea beach circuit of Zandvoort will play a role, as he is regarded as a brilliant wet weather driver.

He declared himself "very happy" with his third place on the podium, saying the crowd "really got the adrenaline pumping".

Fernandes lifts Man Utd gloom, Frank suffers first league loss with Spurs

AFP | London, United Kingdom

Bruno Fernandes eased the pressure on Manchester United boss Ruben Amorim as his last-gasp penalty sealed a 3-2 win over Burnley, while Thomas Frank suffered his first Premier League defeat as Tottenham manager on Saturday.

Just days after a humiliating League Cup second-round loss at fourth-tier Grimsby, United were on the brink of another damaging result after promoted Burnley twice came from behind at Old Trafford.

Amorim had admitted after the Grimsby debacle that he sometimes thinks about quitting and often hates his players.

His mood would have been even darker before United captain Fernandes came to the rescue seven minutes into stoppage time. United's first win in three league games this season will give Amorim some much-needed respite heading into the international break, although questions will still be asked of the Portuguese coach after his side's

latest erratic display.

Luck was on United's side when they took the lead in the 26th minute.

Casemiro's header thumped off the crossbar and hit Burnley captain Josh Cullen on the back, ricocheting over the line before Martin Dubravka could claw it away. Lyle Foster hauled Burnley level with a 55th-minute finish from Jacob Bruun Larsen's cross. Bryan Mbeumo put United back in the lead just 15 seconds later when he slammed in Diogo Dalot's cutback for his first league goal since his summer move from Brentford.

United's frailties were punished again as Jaidon Anthony equalised in the 66th minute.

It was a shambolic goal, with Altay Bayindir spilling Loum Tchaouna's shot and Anthony poking the loose ball goalwards before Kobbie Mainoo's attempted clearance rebounded in off the United goalkeeper.

But in the final moments Anthony pulled Amad Diallo, with a lengthy VAR check concluding the foul continued inside the

area, conceding a controversial penalty that Fernandes gratefully tucked away to Amorim's immense relief.

Tottenham were beaten 1-0 by Bournemouth to end Frank's strong start since he arrived from Brentford to replace the sacked Ange Postecoglou in the close-season.

Tottenham had won their first two league games under the Dane without conceding a goal, including a 2-0 win at Manchester City last weekend.

But Evanilson struck in the fifth minute with a deflected shot as Bournemouth left north London with their second win this term.

Chelsea benefit from VAR drama

Leaders Chelsea took advantage of VAR controversy to beat Fulham 2-0 as the visitors were left to rue a series of costly decisions awarded against them at Stamford Bridge.

Enzo Maresca's side, who have seven points from three games, were fortunate not to

fall behind in the west London derby when Fulham were harshly denied a first half opener.

Josh King's strike was ruled out after VAR deemed Rodrigo Muniz's accidental collision with Trevoh Chalobah was worthy of a foul.

As if that wasn't infuriating enough for Fulham boss Marco Silva, Joao Pedro put Chelsea ahead beyond the scheduled eight minutes of stoppage time at the end of the first half.

Adding to Silva's anger, Chelsea's second goal was also VAR-influenced as Ryan Sessegnon was adjudged to have handled a cross, leading to Enzo Fernandez converting from the penalty spot.

Jack Grealish starred as Everton beat Wolves 3-2 at Molineux.

Beto headed Everton in front from Grealish's flick after seven minutes.

Wolves drew level in the 21st minute when Marshall Munet-

si's cross reached Hwang Hee-

Manchester United's Portuguese midfielder #08 Bruno Fernandes

chan and he lashed into the roof of the net for his first goal since December.

Ilman Ndiaye restored Everton's advantage in the 33rd minute, applying the finishing touch to a flowing move involving on-loan Manchester City winger Grealish and Kiernan Dewsbury-Hall.

Dewsbury-Hall bagged Everton's third, blasting home from Grealish's pass in the 55th minute before Rodrigo Gomes reduced the deficit in the 79th minute. Sunderland staged an impressive fightback to beat Brentford 2-1 at the Stadium of Light.

Brentford were given a second-half penalty for Reinaldo's tug on Nathan Collins, but Kevin Schade's spot-kick was saved by Robin Roefs.

Keith Andrews' side still took the lead thanks to Igor Thiago's 77th-minute header.

But Sunderland hit back as Rico Henry's foul on Habib Diarra conceded an 82nd-minute penalty that Enzo Le Fee converted.
